To whom it may concern

On behalf of our government and all the people of Ukraine we want to thank you and the global community for everything you are already doing to support our country!

We see your efforts and are grateful!

The challenges we are facing are numerous. We would like to ask the EDOs - Economic Development Organizations - and Chambers of Commerce from around the world who support Ukraine and democracy and are standing with us against the aggressor, to begin coordinating your efforts through our partner, the International Trade Council.

The International Trade Council has launched a new platform – united4ua.org – where we can all come together in to communicate with one another collectively to address issues of donations and requests, and supply chain issues that organizations may now be facing as a result of this war.

By coming together and working with each other, opening communication, we can speed up the outcomes and work to further cripple the economy that is driving Putin's war machine. One of the primary outcomes we want to see is the cessation, the stopping, of ALL trade with Russia. Not just ceasing the trade of sanctioned items - but ALL goods! There must not be a single dollar or euro fuelling their crimes against us, the West, and all democracy loving peoples around the world!

Please work with one another and the International Trade Council, as they facilitate this effort, and join the platform they have facilitated for us.

Sign also encourage all businesses to sign the pledge to stop doing business with Russia!

Join their platform and coordinate with your colleagues and counterparts

Reach out the ITC for data that will help YOUR companies replace Russian goods being bought on the market!

Thank you again for your support!

Slava Ukraini!

**Deputy State Secretary
of the Cabinet of Ministers**

Anatolii KUTSEVOL
